Standalone communicating data logger

LOG04V4

The **LOG04V4** is data logger is a standalone unit incorporating a battery and communication options such as GSM-GPRS (2G, 4G or LoRaWAN), depending on the model. The logger can be equiped with an interchangeable communication card allowing to switch from 4G to LoRa without changing the entire hardware. The configuration is done quickly and safely nearby, using a radio connection.

- **Wireless radio settings (Wiji protocol)**
- **Communication: local radio + optional communication card: 2G / 4G (LTE-M or NB-IoT) or LoRaWAN**
- **Memory: 500,000 measurements**
- **IP68 ingress protection (1 Bar/30 days)**
- **Long-life lithium battery**
- **1 external power input (5V - 30V)**
- **1 Modbus input or output**
- **2 digital inputs: Digital or 100 Hz metering**
- **1 power output (internal battery or switch)**
- **1 Open drain output**

Applications	
• Area-Velocity Flow	• Pressure measurement on drinking water networks
• Lift stations	• Physico-chemical
• CSO / SSO	• Drinking water flow measurement
• Rainfall measurement	• Electromagnetic flowmeter connection by Modbus

Features	LOG04V4	
Storage capacity	500,000 measurements	
Concentrator	Yes	
Inputs	• 1 power input (5V - 30V) • 1 Modbus input (If not already used as output)	• 2 Digital inputs or 100 Hz metering
Outputs	• 1 power supply output (5V - 18V on internal battery) or Vin switch	• 1 Open drain output • 1x Modbus output (If not already used as input)
Communication	• HF radio (868 or 915 MHz) • 2G / LTE M or NB IoT (via FTPS, HTTPS, COAP or MQTTS protocols)	• LoRaWAN: Europe 863-870 MHz (SF12 for RX2) LoRaWAN Specification 1.0.2
Radio range	100 meters in open field (Wiji protocol)	
Radio hub function	Yes	
Radio / mobile antenna	• Internal or external radio	• Internal or external mobile
Temperature range	-20 to 70°C	
Logger housing	PA12	
Ingress protection	IP68: 1 bar for 1 month (only if using Ijinus mounting kit; PN: H0T00053 or H0T00060)	
Power	Lithium battery: 3.6 V - 34 Ah	
Configuration	Wireless programming kit (PN: M0C00001) with AVELOUR software, cable and antenna	
Certification **Atex zone 2**	II 3G Ex ic ec IIB T4 Gc Ambient temp: -20 °C to 60 °C	Certification: CE FC SE6A002 - IC : 10983A-A002-A0102
